Review of the Remedial Design (RD) Work Plan

Dear Mr. Haynes:

On June 22, 1992, EPA received five copies of the RD work plan from the Medley Farm Steering Committee's RD contractor, RMT Inc. RMT indicates they sent the required number of copies directly to your office for the State's review and comment. The other associated RD plans, the Field Sampling and Analysis Plan, Quality Assurance Project Plan, and Health and Safety Plans, were revised in accordance with EPA and State comments and according to RMT were also sent. All of these documents should have arrived on Monday or Tuesday June 22 or 23, 1992.

Please coordinate the State's review and comment on these documents as necessary. I ask that you have your comments to me no later than Friday, July 17, 1992. If there are questions, please call me at (404) 347-7791.

Sincerely,

Ralph O. Howard, Jr.
Remedial Project Manager
